ANTARPPPLY EXPEDITIONS

Antarpply Expeditions has specialised in small ship expedition cruises to Antarctica and the sub-Antarctic islands for more than 5 years. As one of the leading Antarctic operators we take small groups to some of the most spectacular, remote and pristine parts of the world.

The USHUAIA is an ideal expedition ship for Antarctica. She was built for the US agency NOAA (National Oceanic & Atmospheric Administration) and has been constantly modernised and refurbished, in order to offer **Antarpply Expeditions'** passengers safety and comfort.

SAFETY, RESPONSIBILITY AND COMMITMENT

Antarpply's team has an enormous and varied Antarctic experience and our expeditions are designed to exceed your expectations. Your safety, together with the protection of the environment, are our priorities and you will be informed about safety measures and environmental policies during the onboard lectures and discussions.

RESPONSIBLE TOURISM

As members of the International Association of Antarctica Tour Operators (IAATO), we are committed to appropriate, safe and environmentally sound private-sector travel to the Antarctic. We operate all our expeditions in accordance with IAATO guidelines and we comply with all the relevant international regulations during navigation and shore visits.

ANTARCTICA

Come with us to the land of superlatives – the coldest, windiest, driest and highest of all the major landmasses in the world. Antarctica is the continent with the longest nights and longest days and, surprisingly, the world's greatest concentration of wildlife. Antarctica is perhaps the last true wilderness area left on Earth – largely unchanged since explorers and whalers first landed on its inhospitable shores less than two centuries ago.

Our Classic Antarctic adventure cruises on board the **USHUAIA** offer the ultimate introduction to the White Continent. Embarking and disembarking in the port of Ushuaia, Argentina, they include many of the wildlife and scenic highlights of the Antarctic Peninsula and the South Shetland Islands.

Antarctica is the most pristine, exhilarating and beautiful place that you can imagine and our expedition cruises are trips of a lifetime!

THE USHUAIA

YOUR PERFECT EXPEDITION SHIP

Originally built for the United States agency NOAA (National Oceanic & Atmospheric Administration), the **USHUAIA** has been refurbished to accommodate a maximum of 84 passengers in 41 comfortable twin cabins and suites. The ice-strengthened polar vessel **USHUAIA** is very well appointed and provides ample deck space and an open bridge policy. The full complement of inflatable landing craft ensures superb landings and wildlife viewing opportunities on the otherwise inaccessible coastline.

All cabins include a desk and ample storage space. Public areas feature a large dining room (one sitting), an observation lounge, bar and library, a conference room with modern multimedia equipment and a small infirmary. Our expert captain, officers and crew are highly experienced in Antarctic navigation and have a great love of nature. We provide a specialist team of international expedition leaders and lecturers, all extremely knowledgeable, enthusiastic and dedicated to the protection of the environment. Our chefs prepare excellent

cuisine including many local specialties and the bar is well-stocked with carefully selected wines and spirits.

CLASSIC ANTARCTICA

EXPERIENCE ANTARCTICA'S WONDERS IN AN ADVENTUROUS YET SAFE MANNER

Our itineraries are expertly planned to take best advantage of the amazing wildlife and spectacular scenery during each time of the Antarctic season. Your Expedition Leader and his team takes you to remote places only visited by few people before. Amazingly busy penguin colonies, spectacular variety of seabirds, abundance of seals and magnificent whales await you, all set in a breathtaking scenery of imposing mountain ranges, ice-filled channels, tabular and beautifully shaped icebergs and glaciers.

We endeavour to make two landings a day via our fleet of zodiacs including a station visit and a continental landing.

Please join us for this truly unique and unforgettable experience! No two voyages are the same, constantly changing weather, scenery and colors provide marvelous opportunities to take photographs or just contemplate and enjoy!

Flexibility is the key to expedition cruises!

DAY 1 DEPART FROM USHUAIA

Embark the **USHUAIA** in the afternoon and meet your expedition and lecture staff. Soon your expedition begins as we sail along the famous Beagle Channel in the tracks of FitzRoy and Parker King.

PLEASE NOTE

The itinerary is a guide only. Our exact route and program will vary to take best advantage of local weather and ice conditions and opportunities to view wildlife. Changes will be made by the Captain and/or Expedition Leader to facilitate the best results from the prevailing conditions. A daily program sheet will be issued on board. Flexibility is the key to success.

DAYS 2 & 3 CROSSING THE DRAKE PASSAGE

Sir Frances Drake gave the name to these perilous waters and the Drake Passage also marks the Antarctic Convergence, the key to the biodiversity of this region.

Antarply Expeditions' lecturers will start the full lecture program and will be out on deck to help in the identification of an amazing variety of seabirds. Our open bridge policy allows you to join our officers on the bridge and learn about navigation and watch for whales.

The first sightings of icebergs and snow-capped mountains indicate that the **USHUAIA** has reached the South Shetland Islands. With favorable conditions in the Drake Passage you will experience your first encounter with penguins and seals on Day 3.

DAYS 4 TO 8 EXPLORING SOUTH SHETLAND ISLANDS AND THE ANTARCTIC PENINSULA

The South Shetland Islands are home to vast penguin rookeries. Chinstrap and Macaroni Penguins, Kelp Gulls, Blue-eyed Cormorants, Antarctic Terns and Southern Giant Petrels and beaches ruled by Antarctic fur seals and southern elephant seals make every day spent in this amazing island group unforgettable. Sailing through the narrow passage into the flooded caldera of Deception Island and the chance to swimming in the hot springs of Pendulum Cove are truly remarkable experiences.

You will have plenty of time to explore Antarctic Peninsula's amazing scenery, a pristine wilderness of snow, ice, mountains and channels, and an incredible diversity of wildlife. Apart from penguins and seabirds you are very likely to see Weddell, crabeater and leopard seals as well as Minke, killer (orca) and humpback whales at close range. We hope to navigate some of the most beautiful waterways: the Gerlache Strait, the Neumayer Channel, and the Lemaire Channel. After negotiating the iceberg-strewn waters of the Antarctic Sound, we hope to visit the bustling Adélie Penguin and Blue-eyed Cormorant colonies on Paulet Island. Further exploration may take you to Paradise Bay, Melchior Island, Cuverville Island, Portal Point, Neko Harbour, Pléneau Island, and if ice conditions permit, to Petermann Island for a visit to the southernmost colony of Gentoo Penguins or to many other exciting landing places including some of the many scientific research stations.

DAYS 9 & 10 AT SEA CROSSING THE DRAKE PASSAGE, NORTHBOUND

Time for more whale and seabird spotting! Enjoy lectures and take the chance to relax and reflect on the fascinating adventures of the past days on the way back to Ushuaia.
